# TESTIMONIALS

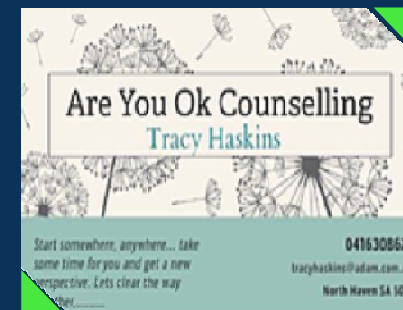

**Personal Testimonial** - Sometimes in life we experience tragedy, loss, stress, depression and adversity. After experiencing some significant hurt during my life, I often had moments where I couldn't see the light, moments where I wondered whether it was truly worth continuing. I have had the privilege of getting to know Sharlene over the past couple of years. Sharlene has given me her support, her caring and nurturing personality has been a true solid foundation for my own personal journey. Now with her advice and persistent gentle pushing I have been able to go through a counselling journey, which has allowed me to be the person I want to be. I can't thank her enough for her professional but caring support.

**Business Testimonial** - In the time that I have got to know Sharlene I have learnt that she is a very passionate woman who has overcome a lot of challenges personal and professional life. She has a drive to succeed and continues to improve upon both herself and her business portfolio. This is why, when experiencing some issues in our own business, I came to Sharlene for advice and mentorship. Sharlene was able to talk to me through some strategies for improving our cashflow and gave me practical advice on future planning within the business.

## **Naylor Gas and Plumbing**

**Personal and Business Testimonial** - I have known Sharlene for the past six years. During these years I have been most impressed and inspired by Sharlene's incredible drive and determination. I have witnessed Sharlene enthral audiences with her quick wit and knowledge of whatever subject she presents. I have personally been inspired by Sharlene to pursue my own business as a Therapeutic Counsellor and I know that she has had the same effect on others. Knowing Sharlene's personal challenges in her life I can attest that she has risen to the challenge and overcome them all. Not only has she achieved this, she is constantly working to help others around her achieve their goals and live their dreams as well. I have often remarked on Sharlene's work ethic and am amazed at how hard she works in both her business and personal life.
